

What to do while you are waiting for the new normal? How about spending time studying Biblical principles that may help make these times more bearable and meaningful? God's waiting room is not a place of inactivity. It can be a sacred place that brings a new purpose to our spiritual walk; a new direction that pulls us closer to Jesus.

This study has eight chapters that we will study over 16 weeks beginning May 12 and ending September 1, 2020. We will read a short chapter over a two-week period at home. Then using your phone, you will call into a number each week where we will all meet to discuss what we read and as well as delve into some reflection questions. Remember hearing about party-lines? This is your opportunity to experience one with a divine purpose! Waiting is something we all do and it can be a time of growth or a time of worry and frustration. Jump onto our party-line where we will surrender our worries to God and learn how the Holy Spirit brings peace and comfort to us in God's waiting room.
